

CAIL Enterprise Desktops

— Flash LINUX upgrade for IBM Netvista 2200 —

CAIL Flash LINUX upgrade for IBM Netvista 2200

Exploit the full possibilities of your Netvista 2200 by using the CAIL Netvista upgrade kit. Our CAIL-2200 Winestra secures your mainframe - midrange-connectivity as well as the access to Windows systems. The CAIL-2200 Winestra lets your device easily handle the most complex jobs. The mainfold abilities include RDP, Citrix ICA 6.2, Unix telnet, X11R6, AIX Terminal emulation and of course TN3270/5250E. The uniform workspace of our Linux based products provides you with a homogeneous operating environment in mixed CAIL / NetVista Installations

CAIL Remote Manager BECAUSE YOU DON'T HAVE ALL DAY

Remote Management software ships with every CAIL Thin Client Terminal. It is all you would expect it to be. With Admin Remote control software you can manage, configure and update your CAIL-Terminals from virtually anywhere in the world.

Software Specifications

Operating System

Embedded Flash LINUX

Management

Remote Admin,
FTP Firmware update,
Configuration, Setup,
Thin Print Management

Setup and Configuration

Local boot, User-friendly configuration screens, Configurable auto-login, Multi-language keyboard support

Network Protocols

TCP/IP, DNS, DHCP, LPD, Remote modem dial up through PPP

Server and Operating System Support

RDP: Microsoft Windows 2000 Server, NT4.0 TSE, ICA 6.2: Citrix Metaframe, XP, CDS version, Telnet, Terminal emulation, X11R6: Unix, Linux

Terminal Emulation

IBM TN5250, TN3270 AIXterm
ASCII / ANSI Emulation. SCO Comnsole
ANSI, Linux ANSI, BBS- ANSI DEC
VT525 / 420 / 320 / 220 / 100 /52. Wyse
120 / 60 / 50+ / 320TVI925, TVI950
ADDS A2 Tandem, HP, DG, AT386,
Siemens

Hardware Specifications

Flash Module

Compact flash 32MB

Supported Resolution

640x480x16bpp (65535 colors)
800x600x16bpp (65535 colors)
1024x768x16bpp (65535 colors)
1280x1024x8bpp (256 colors)

Audio Support

16 bit stereo FM synthesis

RAM requirement

32MB RAM

KEY FEATURES

- TN 5250E / TN 3270 E
- AIX Term
- 122-keyboard support
- Remote Management Compact Flash firmware with FTP update
- RDP for Microsoft Windows 2000 Server Compatibility
- ICA 6.2 (CDS version included)
- PPP remote dial-up
- Multi-user, Multi-sessions
- Embedded Flash Linux
- Simple operation
- Best delivery of Win32 applications
- Suitable for most UNIX systems
